

Advanced Hands-On Technical Workshop

OmniStrip 9400 / PowerStrip 9500 / MegaStrip 9600 Wire Processing Machines

■ OmniStrip 9400

■ PowerStrip 9500

■ MegaStrip 9600

You Will Learn How To:

- Configure the OmniStrip 9400 / PowerStrip 9500 / MegaStrip 9600 for processing any wire including coaxial cable, single conductor, multi-conductor, ribbon cable, CAT 5, flat cable, power cable, and much more.
- Customize unique stripping parameters such as windows, multiple stripping steps, slitting, etc.
- Interface with pre- & post-processing equipment.
- Perform maintenance checks and machine calibration.
- Optimize your wire processing for increased throughput.

Course Benefits

The OmniStrip 9400 / PowerStrip 9500 / MegaStrip 9600 are highly versatile wire processing machines. To utilize the full potential of these machines, a full understanding of the machine's capabilities is required. This training will give you that understanding. In addition, it will help you:

- Maximize your wire processing efficiency.
- Fully understand machine set-up, programming, calibration, and maintenance.
- Become a master of the OmniStrip 9400 / PowerStrip 9500 / MegaStrip 9600 operations.
- Train your fellow employees or peers with ease.

Using classroom and hands-on activity, the training is designed to make **YOU** the **EXPERT** in **OmniStrip 9400 / PowerStrip 9500 / MegaStrip 9600** wire processing.

Who Should Attend

This training is valuable to current and potential OmniStrip 9400 / PowerStrip 9500 / MegaStrip 9600 users including manufacturing engineers, operations personnel, machine operators, and any other personnel involved in using the machines.

1-Day Course Schedule

Dallas, TX

Wednesday, March 17th, 2010

Training Content:

Introduction and Overview

OmniStrip 9400 / PowerStrip 9500 / MegaStrip 9600

- Specifications
- Processing capabilities

Machine Set-up and Accessories

- Using prefeed systems
- Using post processing accessories
- Selecting blade types and their application
- Selecting guide tubes and their application

Basic Machine Programming (Normal Wire)

- Setting up cut and strip parameters
- Setting up feeding and cutting parameters
- Marking
- Use of options
- File management

In-Depth Wire Programming (Custom Wire)

- Programming multiple operations
- Programming multiple strips
- Programming steps
- Programming area (marking, foot pedals, crimp press, etc)
- Programming windows

Programming and Utilization of Wire Lists

- Benefits and use of wire lists
- Programming wire lists
- Wire first / list first

Configuration

- Cutter head blade selection and calibration
- Setting operating parameters
- Devices - how to integrate prefeeds, markers, etc
- Setting system parameters
- Setting length default parameters
- Setting stripping test parameters

User Interface

- Setting interface parameters (language, units, etc)

Diagnostics

- Troubleshooting and system checks

Schleuniger[®]
To Be Precise.

Advanced Hands-On Technical Workshop

OmniStrip 9400 / PowerStrip 9500 / MegaStrip 9600 Wire Processing Machines

Course Location and Time

The OmniStrip 9400 PowerStrip 9500 / MegaStrip 9600 hands-on Technical Workshop will be held at the Marriott Courtyard located at 2930 Forest Lane, Dallas, TX 75234

The course will begin at 8:30am and conclude by 4:30pm. Snacks, refreshments, and lunch will be provided. A training certificate will also be issued at the completion of the workshop.

Registration Form

Fax to: (603) 668-8119 or Call toll-free: (877) 902-1470

Registrants:		
Company:
